

Haemophilia & Health Collective of North®

Registered under the Society Registration Act XXI, 1860

B-3/56, Safdarjung Enclave, New Delhi, India

18 April 2024

INVITATION

Greetings!

We take delight in extending this gracious invite to our forthcoming **Haemophilia Conclave 2024** scheduled in New Delhi on Saturday May 18th, 2024.

In the previous year, our **Haemophilia Conclave 2023** was a grand success and subsequently culminated in December 2023 with the launch of the **First National Guidelines on Haemophilia Care** under aegis of Haemophilia & Health Collective of North®.

Haemophilia Conclave 2024 strives to bring together the national experts from the field of Haemophilia and bleeding disorders, along with other treaters and healthcare professionals from prominent institutions and fields, with primary focus on developing consensus on the policies and protocols for optimal Haemophilia Care in India based on guidelines for best practices from key stakeholders in haemophilia care.

The Theme for **Haemophilia Conclave 2024** is

Policy and Protocols for Best Practices in Haemophilia Care in Developing Countries

- Policy & Protocols for Enabling Best Haemophilia Treatments

These outcomes may benefit all the developing countries with resource constraints of money, manpower, and infrastructure.

Haemophilia Conclave 2024 is being organized by **Haemophilia & Health Collective of North®** with support from MAMC & Lok Nayak Hospital, Delhi. It will bring together experts from relevant specialties of Clinical Haematology, Paediatric Haematology, Clinical Medicine, Paediatrics, Pathology, Blood Transfusion Medicine, Surgery, Orthopaedics, Dentistry, as well as professionals in Nursing, Physiotherapy, Sociology, Psychology, and inter-sectoral domains of public health, sociology, disability etc. The concerned dignitaries from Health and Medical education Departments from across India will also be in attendance.

Renowned speakers will share their expertise in newer developments in haemophilia care. The conference will feature sessions and panel discussions covering the status and gaps in haemophilia care, prioritizing primary treatment regimens, and segmenting different protocols based on clinical outcomes and cost-effectiveness, particularly beneficial for resource constraint scenarios including India.

We solicit your presence and sharing best practices at the **Haemophilia Conclave 2024**. This will go a long way in strengthening the welfare of haemophilia community.

Looking forward to seeing you in New Delhi **Haemophilia Conclave 2024!**

Please confirm your timely confirmation by month-end to better manage the logistics.

Kind Regards

Naresh Gupta
